### **EXPERIENCE**

#### **The Rinaldi Group**

**12/15-07/18**

#### **Senior Compliance Officer**

Managed the inspection of high-rise projects daily for compliance with city building and fire codes and OSHA rules and regulations. Developed daily reports and logs of each visit along with a weekly summary for the Commissioner of the Buildings Department. In addition, coordinated online safety classes and taught classroom safety training programs for project managers, superintendents, and safety personnel.

#### **Mega Contracting Group, LLC**

**3/15-12/15**

#### **Safety Director**

Managed the health and safety program for the company's work force and subcontractors on affordable housing public and private projects. Continually stayed up to date with new rules and regulations to keep Mega's safety program at the forefront of the industry. Facilitated training including OSHA 10-hour, OSHA 30-hour, and city required training (site safety manager, scaffold, fire guard, fire safety manager, concrete safety manager, flagging). Initiated the company's drug testing program.

#### **T. Moriarty & Son**

**3/08-1/14**

#### **Corporate Safety Director**

Developed the company's safety and health program for construction activities on projects over \$100 million. Managed the health and safety of the company's work force and subcontractors on public works projects, including installing and repairing wastewater flow gates; building and renovating electrical substations; renovating power transformers; building new and renovating old water pump stations; building new parking decks, approach roads, and airport police and firefighting facilities; building new and renovating old railroad overpasses, rail station buildings, and rail platforms; and storm hardening of structures (result of Superstorm Sandy). Managed and conducted training to meet OSHA requirements including Confined Space and OSHA 10-Hour and 30-Hour classes.

**URS Corp.**

**6/06-3/08**

**Northeast Regional Health, Safety, and Environmental Manager**

Managed the health and safety program for construction projects located from Washington, DC to Boston, MA. Reduced the 2006 Total Recordable Incident Rate (TRIR) from 0.82 to 0.53. Supervised safety personnel; conducted OSHA training and behavioral-based safety training; and managed compliance to corporate safety policy, regional safety audit protocols, site-specific safety programs, and safety consultants. Also, performed industrial hygiene site testing and developed corrective measures, as was done with the Transportation Hub at Ground Zero.

Oversaw safety on projects including a new 800-bed correctional facility; a new water filtration plant for the New York City water supply; a new five-million-gallon drainage and holding tank for a water treatment plant; rehabilitation to roads and bridges; program management for the expansion and renovation of Kennedy Airport, LaGuardia Airport, and Newark Liberty Airport buildings, roads, and infrastructure; and the Eastside Access Tunnel connecting the Long Island Railroad to Grand Central Station; the World Trade Center (Ground Zero); and the new New York City DEP ultraviolet filtration plant.

**NJ Schools Development Authority**

**2/03-6/06**

**Senior Safety Manager**

Managed the construction safety and health activities for 40 schools worth over \$1 billion. Enforced a strict policy of separation of construction and educational activities; integrated the NJSDA Safety Program into the OCIP program; and managed four safety consulting firms. Also, developed remedial action and worker safety plans at school sites that were contaminated with heavy metals, PCBs, and arsenic.

**Skanska USA Building**

**6/02-2/03**

**Project Safety Manager**

Managed the safety and health activities of the \$175 million expansion of the Queens Center Mall. Organized orientations, safety meetings, and daily walk-throughs; coordinated governmental activities; and developed and implemented plans for removal of contaminated soil.

**J. A. Jones Construction Group, LLC**

**5/98-6/02**

**Director, Corporate Safety**

Managed the safety operations for 50 job sites in the New York metropolitan area. Oversaw the safety of projects such as the expansion of the Metropolitan Museum of Art, the new U.S. Courthouse and the General Post Office in downtown Brooklyn, and the \$900 million renovation and expansion of Continental Airlines Terminal C at Newark International Airport. Also, managed the risk management department, including regular and specialty coverages, accident investigations, and claims.

**Gerling America Insurance Company**

**6/94-1/98**

**Loss Control Account Manager**

Started the company's construction division, including developing all necessary forms and procedures and hiring personnel and consultants. Managed loss control services for approximately 600 large construction accounts countrywide.

**Henderson Corp.**

**10/92-5/94**

**Project Safety and Health Manager**

Safety and Health Manager for Merck's three research and development buildings and a water treatment plant. Developed the Contractor Safety Implementation Plan for Merck's \$500 million Rahway site, encompassing 20 projects. Also, conducted safety/industrial hygiene training and orientation for all construction personnel on all Merck's construction sites, including topics on confined space entry and the Toxic Catastrophe Prevention Act.

**Lehrer McGovern Bovis Inc.**

**8/84-6/91**

**Director of Safety and Health**

Developed company's first safety department, including hiring safety personnel and developing their corporate safety program. Reduced the insurance experience modification rate from 1.01 to 0.73; reduced the severity rate by 25%; and reduced the frequency rate by 20%. Managed the enforcement of all industrial hygiene regulations, including safe removal of asbestos, lead, and contaminated soil. Projects were far ranging, including stadiums, hospitals, colleges, high-rise hotels, the New York Stock Exchange, the Statue of Liberty, and Ellis Island.
